

> **DFS Deutsche Flugsicherung GmbH, Bremen office (air traffic control)**

KAEFER Construction GmbH, Bremen

Summary	Alterations to the control centre with offices and rack rooms, working with existing buildings.
Location	DFS Deutsche Flugsicherung GmbH, Flughafendamm 45, 28199 Bremen
Build time	March 2007 to December 2007, March 2008 until now
Client	DFS Deutsche Flugsicherung GmbH, Am DFS-Campus 10, 63225 Langen
Architect	Various architects
KAEFER's role	Refurbishment work (KMF) and demolition with fire-protection measures, acoustic ceilings, raised floors, MICROSORBER® in the air traffic control room, fireproofing concrete ceilings
Challenge	Working in existing buildings under extreme conditions: minimum noise allowed due to 24 hour operations, working at night.
Our solution	Maximum amount of prefabrication resulting in short assembly times on site.
Added value for client	Everything from a single supplier, plus comprehensive advice and planning, from disposal and fire protection through to acoustics and raised floors.
