

> Pier B West, Frankfurt Airport

KAEFER Construction GmbH, Frankfurt

Summary	Modernisation of Pier B, alterations to meet new EU directives
Location	Frankfurt Airport
Build time	March 2008 to May 2009
Client	Fraport AG, 60547 Frankfurt am Main
Architect	Braun Volleth Architekten GmbH, Hanauer Landstraße 172, 60314 Frankfurt am Main
KAEFER's role	Screed, flooring, floor coatings, ceilings (e.g. stretched metal ceilings, wet ceilings), windows, doors (e.g. fire-resistant doors and rolling gates), metal construction work, special wall panelling, painting, metalworking, final cleaning.
Challenge	Working in security zone (movement area) and during ongoing flight operations, no storage space (material delivered just in time), 24 hour shift work.
Our solution	Detailed planning, smart logistics and coordination of other contractors, top project management.
Added value for client	Outfitting from a single supplier, vast experience with complex projects, own vehicles, flexibility thanks to in-house prefabrication of fire-protection elements in Frankfurt.
